2/14/06 R04-04-003 Order Instituting Rulemaking to promote policy and program coordination and integration in electric utility resource planning.

Summary: On February 9, 2006, Evelyn Kahl, counsel to the Energy Producers and Users Coalition (EPUC), met with Nancy Ryan, advisor to Cmmr. Peevey, in San Francisco. Kahl urged that the Commission defer its adoption of a carbon cap for electric utility procurement until a broader statewide, regional or federal program is in place. Kahl also summarized three additional points made in the EPUC's comments.

2/14/06 A04-08-018 Southern California Gas Company, to Establish Regulatory Authority over the Access for Natural Gas Provided by California Gas Producers.

Summary: On February 9, 2006, Evelyn Kahl, counsel to the Indicated Producers (IP), met with Belinda Gatti, advisor to Cmmr. Brown, in San Francisco. Kahl advised the Commission that the IP and WSPA are very interested in gaining greater certainty in the relationship between Southern California Gas Company (SoCalGas) and in-state producers. Kahl indicated that IP/WSPA have proposed a standardized agreement. Kahl observed that SoCalGas is in a strong monopoly position in this relationship.

2/14/06 R04-01-025 Order Instituting Rulemaking to establish policies and rules to ensure reliable, long-term supplies of Natural Gas to California.

Summary: On February 9, 2006, Evelyn Kahl, counsel to the Indicated Producers (IP), met with Belinda Gatti, advisor to Cmmr. Brown, and Rami Kahlon, advisor to Cmmr. Peevey, in two separate meetings in San Francisco. Kahl discussed areas of concern in the gas quality arena. First, Kahl observed that a 1400 Wobbe value would be a restriction, rather than an expansion, in existing specifications. Second, Kahl explained that Southern California Gas Company's (SoCalGas) proposed reductions in CO₂ and O₂ specifications have not been substantiated. Third, Kahl observed that most parties agree that it would not be prudent to adopt the CARB compressed natural gas vehicle specifications – fuel pump specifications – as inlet specifications on the SoCalGas system. Finally, Kahl raised a practical concern over the potential designation of this matter as requiring California Environmental Quality Act review.

2/14/06	A04-12-014	Southern California Edison Company, for authority, among other things, to increase its authorized revenues for electric service in 2006 and to reflect that increase in rates.
	I05-05-024	Order Instituting Investigation on the Commission's own motion into the rates, operations, practices, service and facilities of Southern California Edison Company.

Summary: On February 9, 2006, Brian Cragg, representing Independent Energy Producers Association (IEPA), had a telephone conversation with David Gamson, advisor to Cmmr. Brown. After the conversation, Cragg emailed to David Gamson a copy of IEPA's comments (attached to the notice). Cragg discussed IEPA's concerns with the proposed decision (PD), explaining that although the PD stated that Southern California Edison Company (SCE) should bear the same cost recovery risks for development of power plants and independent power providers, the PD nevertheless granted SCE's request for recovery in rates of nearly \$5 million it proposed for the Project Development Department. Cragg stated that it appears that ratepayers would absorb the costs of unsuccessful projects and general costs of the Project Development Department.
